

What is MusicLink ?

The MusicLink Foundation is a non-profit organization that links promising students in need with professional music teachers who volunteer to teach on partial to full scholarship for as long as these students wish to learn.

The MusicLink Foundation assists in the purchase and repair of instruments, moving costs for donated pianos, camp scholarships for our students, and coordination and expansion of programs into new communities across the country. Foundation funding relies on contributions from the public, in-kind instrument donations from business partners and grants.

The MusicLink Foundation has served over 7,600 students in all 50 states with teachers donating over 564,000 hours of instruction, equivalent to over \$15.8 million of in-kind service to the program.
